

Anurag Singh

Front-end Developer & UI/UX Designer

Objective

Motivated and detail-oriented Frontend Developer with expertise in UI/UX design. Skilled in creating responsive and visually appealing web applications using modern technologies such as HTML, CSS, JavaScript, and React. Passionate about user-centered design and improving user experience through thoughtful interfaces. Eager to contribute to innovative projects that merge creativity with functionality, ensuring optimal performance across devices. Looking to leverage my skills in both development and design to enhance user satisfaction and drive business success in a dynamic and forward-thinking organization.
